

Required Visitor Declaration Form For Entry to an LBVSD Facility

The safety of our employees, suppliers, customers, families and visitors remain our overriding priority. As the coronavirus disease 2019 (COVID-19) pandemic continues to evolve and spreads globally, the Little Blue Valley Sewer District is monitoring the situation closely and will periodically update our guidance based on current recommendations from the Centers for Disease Control and Prevention and the World Health Organization. **Only business critical visitors are permitted at our facilities at this time.** To prevent the spread of COVID-19 and reduce the potential risk of exposure to our workforce and visitors, we are conducting a simple screening questionnaire for those critical visitors. Your participation is important to help us take precautionary measures to protect you and everyone at this facility. Thank you for your time.
